(54) Title: A POLYMERIC STENT USEFUL FOR THE TREATMENT OF THE SALIVARY GLAND DUCTS AND METHOD FOR USING THE SAME

(57) Abstract: A polymeric stent, especially useful in surgical endoscopy and for the treatment of salivary gland ducts comprising: an elongated tube (1), wherein the proximal end (3) of said tube is having a funnel-like shape; and wherein said funnel further comprise at least one gorge (5a), which enables the suturing of said stent to said duct. The invention also relates to a method for implanting the polymeric stent into the lumen of a salivary gland duct.
